- **Disability Compensation**
- **Disability Compensation - Special Monthly Compensation (SMC)**
- **Dependency and Indemnity Compensation (DIC)**
- **Aid & Attendance and Housebound Benefits**
- **Disability Compensation - Parents' Dependency and Indemnity**

The Veterans Benefits Administration (VBA) provides a variety of benefits and services to Servicemembers, Veterans, and their families. We administer the education programs that provide education and training benefits to eligible Active Duty, National Guard, and Reserve Servicemembers, Veterans, and dependents.

VA disability compensation provides monthly benefits to Veterans in recognition of the effects of disabilities, diseases, or injuries incurred or aggravated during active military service. The program also provides monthly payments to surviving spouses, dependent children, and dependent parents in recognition of the economic loss caused by a Veteran's death during military service or, after discharge from military service, as a result of a service-connected disability.

Special Monthly Compensation is an additional tax-free benefit that can be paid to Veterans, their spouses, surviving spouses and parents. For Veterans, Special Monthly Compensation is a higher rate of compensation paid due to special circumstances such as the need of aid and attendance by another person or by specific disability, such as loss of use of one hand or leg. For spouses and surviving spouses, this benefit is commonly referred to as aid and attendance and is paid based on the need of aid and attendance by another person.
